| REPORT       | 63 |

On behalf of Governor Wolf, I am once again pleased to report to the citizens of Pennsylvania on the success of the PENNVEST programs for the 2017-2018 Fiscal Year.

This past year brought staff changes due to retirements. Brion Johnson transitioned to Executive Director beginning with the quarterly Board Meeting in July 2017, followed by the promotion of Robert Boos to Deputy Executive Director for Project Management. Chris Kelliher has been serving as the agency's new Chief Financial Officer since May 2018.

In addition to staff changes, at the July meeting, the Board approved a \$570,000,000 funding budget, and selected a financial consultant to perform the independent financial review of our funding requests. Twenty-three projects for a total of \$74.6 million in funding were also approved and are summarized as follows:

- Eight drinking water projects for almost \$41 million one drinking water project is with the Upper Tioga River Regional Authority, bringing four communities together under one umbrella to ensure available potable water to the residential customers, as well as support an economic development opportunity in the development of electric generation;
- Eleven wastewater/stormwater projects for \$31 million one with Cooper Township in Montour County, where the Board approved funding for a line extension to 351 homes with a severe on-lot malfunction rate, with treatment in the nearby regional facility in Danville; and
- Four non-point source clean water projects for \$2.6 million
   one is with Tri-Municipal Park in Centre County for a project

that includes vegetated swales, rain gardens and a detention/ infiltration basin to address stormwater run-off and a nearby sink hole.

The Board's final action at July's meeting was agreement to consider repayment terms of longer than 30 years for certain start-up systems that have excessively high user fees.

The October 2017 Board Meeting included the approval of sixteen projects for a total of \$116 million in funding, summarized as follows:

- Two non-point source pollution prevention projects, including a \$1.2 million green infrastructure project with the Borough of Homestead in Allegheny County, to capture and infiltrate runoff as a component of a partnership with the Steel Valley School District;
- Three drinking water projects for \$15.1 million of these, Reade Township Municipal Authority in Cambria County was approved for \$1.5 million to replace raw water transmission and distribution lines and residential meters, to address significant water loss, line breaks and water outages;
- Nine wastewater projects for \$70.6 million among them is Lake City Municipal Sewer Authority in Erie County for \$4.6 million, to support treatment plant improvements and bio solids handling, to comply with effluent limits and allow for consolidation of the surrounding communities into this regional treatment facility; and
- Two stormwater projects for \$3.6 million one with Bangor Borough in Northampton County, to replace a failing slate box culvert with storm sewers adequate to convey flows and prevent further property damage.

The Board Meeting in January 2018 included approval of two applications for federal funding, and authorized staff to proceed with these application submittals to the Environmental Protection Agency. The first application was for the Clean Water State Revolving Fund for a capitalization grant of up to \$64,000,000. The second application was for a capitalization grant for the Drinking Water State Revolving Fund in the amount of up to \$32,000,000.

Staff also provided the status of the previously-approved Federal Clean Water and Drinking Water SRF Series 2018A Revenue Bonds, as part of a process to leverage the SRF's strong portfolio as security for financial instrument programs, such as commercial paper. On January 11, 2018, PENNVEST sold an inaugural issue of \$50 million in revenue bonds under the Federal Clean Water and Drinking Water State Revolving Funds Programs First Supplemental Indenture. PENNVEST's AAA-rated bonds sold at a stellar True Interest Cost of 1.948595, and the transaction closed on January 18, 2018.

Also at the January meeting, thirteen projects were approved for a total of \$74 million in funding, summarized as follows:

 Four non-point source projects for just under \$31 million, including \$24.5 million for the second part of a total \$50 million PENNVEST loan to Lyme Pennsylvania Headwaters to finance the purchase of timber tracts to provide watershed protection,

supply a permanent conservation easement on a portion of the property, and construct acid mine drainage mitigation;

- Two drinking water projects one with Springdale Borough in Allegheny County for \$5.4 million, to address deteriorating pressure filters and other treatment plant upgrades, as well as replace distribution lines;
- Six wastewater projects for \$36.7 million a poultry processing facility owned by the Keystone Protein Company in Lebanon County, received \$11 million to construct a new industrial wastewater treatment plant in order to meet the facilities discharge limits; and
- One stormwater project for \$277,911 to fund the replacement of failing stormwater pipes in Hawley Borough in Wayne County.

During the final quarterly Board meeting of the Fiscal Year in April, the Board adopted a meeting schedule for 2018-2019. The Board also authorized staff to increase both the Clean Water and Drinking Water State Revolving Funds applications to reflect an increase in funding made available to the Commonwealth from the Environmental Protection Agency. The Clean Water State Revolving Fund was revised to an increased amount up to \$72,000,000, and the Drinking Water State Revolving Fund was revised to an increased amount up to \$40,000,000 in respective capitalization grants.

At the April meeting, twelve projects were approved for a total of \$60 million in funding, summarized as follows:

- · Four non-point source pollution prevention projects for \$7.9 million – one included a \$600,000 project with Armstrong Township in Lycoming County, to provide conservation easements, wetlands, and riparian buffers on the West Branch of the Susquehanna River;
- Two drinking water projects one with Southwestern Pennsylvania Water Authority in Greene County for \$15.7 million, to install a new water storage tank and replace/install 113,000 feet of water line to reach Dunkard Valley Joint Municipal Authority's system, and replace the aged distribution system to eliminate the health hazards associated with water outages and numerous contamination violations; and
- Six wastewater projects for \$35.1 million one with Burrell Township Sewer Authority in Indiana County for \$11 million, to cover the costs associated with upgrades to the existing treatment plant, needed to address deteriorating and inadequate facilities.

Since the last report, PENNVEST has performed the following key measures:

- Approved \$325 million in funding for 64 projects.
- Completed settlement of 54 projects for approximately \$215 million.
- Disbursed 1,058 payments for approximately \$295 million, to cover eligible construction-related costs to prior approved projects.

- · Processed 89 loan modification requests.
- Closed out 33 projects; moving them to final amortization/ repayment.
- Received total repayments of \$233,570,978, including 55 projects with obligation paid in full this year, and placed repaid monies into the various funds used to support this program.

While the thirty-year historical perspective on the program is important, what becomes key is how we leverage our experience and existing resources to continue to support and maintain Pennsylvania's clean water in the future. Healthy water empowers healthy communities. Clean water is the lifeblood of any community, and the assurance of it, enables families to live and prosper in the economic development that is attracted to these healthy areas.

The nature of clean water projects has changed since the program began in 1988. Drinking water sources, known to be influenced by surface water, have been addressed; wastewater treatment has progressed to a much higher level, and continues to improve; and combined sewer system issues are being facilitated with capital improvements, as are malfunctioning on-lot systems. PENNVEST staff is working with many communities across the Commonwealth to support what are termed green infrastructure projects - those projects that utilize nontraditional methods to impact water quality. Funding for these projects is used to install green roofs, rain gardens and pervious pavement, among other things, to help reduce stormwater flows which carry contaminants that pollute our streams and rivers. These projects also assist wastewater treatment facilities, as they are better able to treat flows, without dealing with extraneous storm-related water. Green infrastructure has proven to reduce costs associated with many clean water issues, while also providing economic and recreational opportunities for communities where these projects are implemented.

While PENNVEST continues to provide necessary funding for traditional water, sewer, and stormwater projects, it is evident that greater innovation is essential for the continued protection of Pennsylvania's water resources. The revolving nature of the loan funds managed by the program, provides for a long-term sustainable source of funding to assist communities throughout the Commonwealth with the implementation of new and better concepts and opportunities to offer clean water to all Pennsylvania citizens. Utilizing available funds to support local clean water initiatives, providing technical and financial resources to promote our overall clean water goals, and maintaining a strong viable fund to ensure continued financing is available for future projects are the keystones to our program. I am proud to report that the program is soundly positioned to carry well into the future.

# Programmatic Accomplishments:

During Fiscal Year 2017-2018, PENNVEST continued funding clean water and drinking water projects, adding \$325 million in approvals for an additional 64 projects.

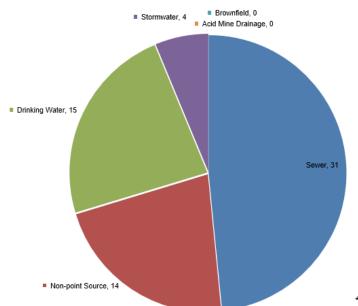

Through the end of June 2018, PENNVEST approved a total of 2,929 projects equal to over \$8.3 billion in funding over the past 30 years of operation. These investments include capital for clean water projects related to wastewater, drinking water, stormwater, acid mine drainage, brownfield remediation, and non-point source pollution prevention.

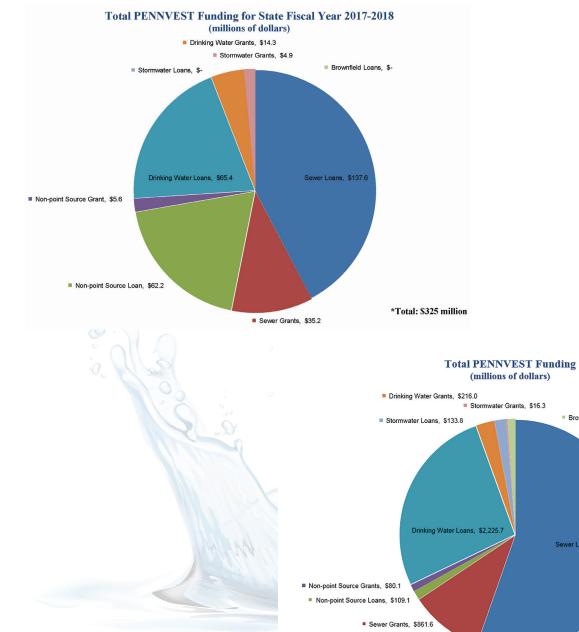

Brownfield Loans, \$94.9

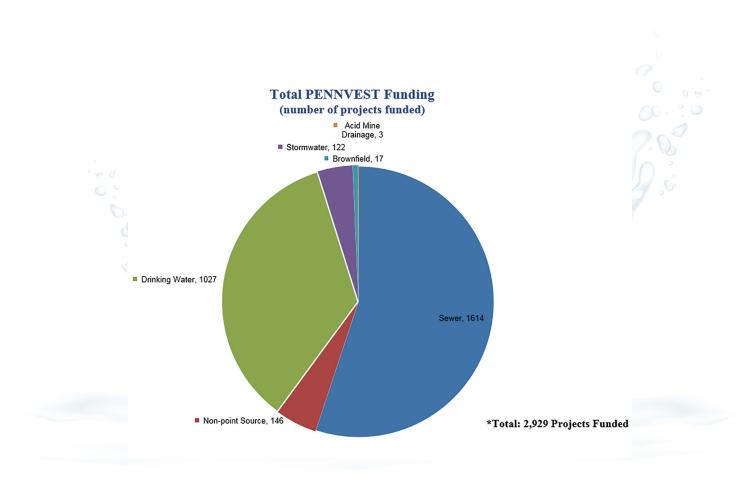

Sewer Loans, \$4,637.

\*Total: \$8.375 Billion

6

\*Total: 64 Projects Funded

# Nutrient Credit Trading:

The Nutrient Credit Trading continued this past year, providing the opportunity for entities to buy or sell nitrogen

and phosphorus credits using the PENNVEST trading platform.

# Nutrient Credit Trading 2017-2018

# Eligibility of Funding:

Recent changes in eligibility of funding for individual homeowners, in partnership with the Pennsylvania Housing Finance Authority, resulted in a substantial increase in funding approved for repair and replacement of malfunctioning on-lot systems, existing homeowner first-time connection to public system, and replacement of existing homeowner leaking sewer laterals.

The maps shown below display the geographic location of projects approved in FY 2017-2018 as well as projects approved by the Board of Directors since the first PENNVEST meeting in 1988.

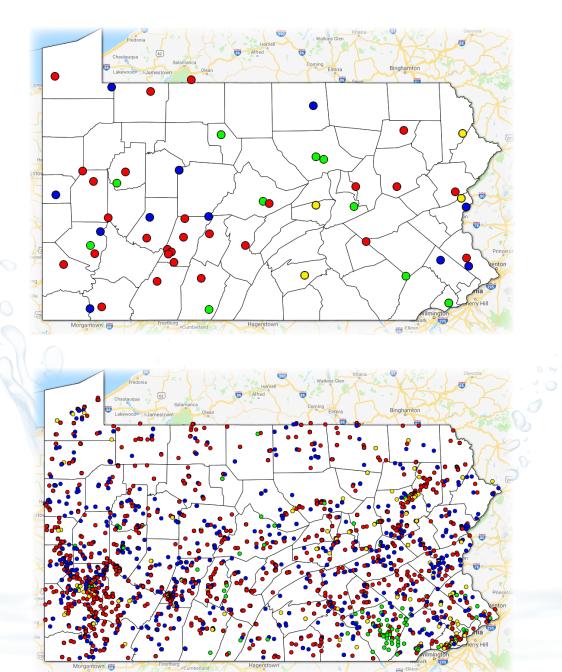

### Map Legend

- Drinking Water Projects
- Wastewater Projects
- Non-point Source Projects
- Stormwater Projects  $\bigcirc$

PENNVEST funding is intended to generate public health, environmental and economic development benefits. Using a variety of measures to document the contributions related

to the specific criteria, the charts shown below identify the benefits garnered by the projects approved in FY 2017-2018.

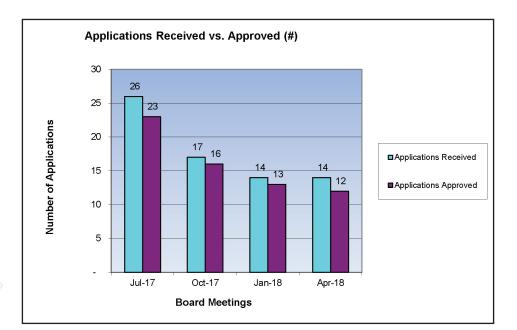

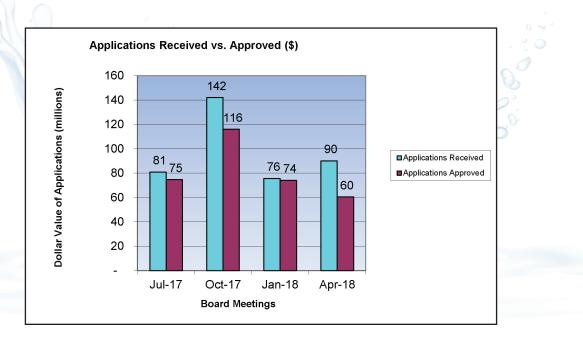

PENNVEST has been able to provide funding offers for all clean water projects which were submitted with a complete application package, and were recommended by the Department of Environmental Protection as being

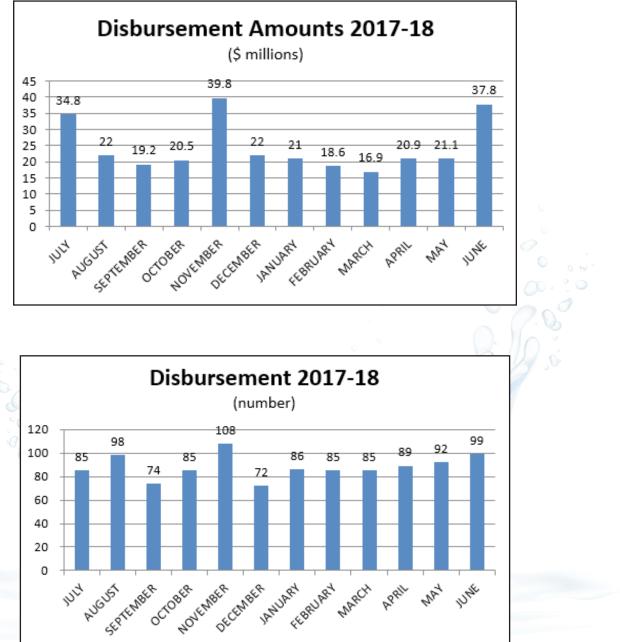

14

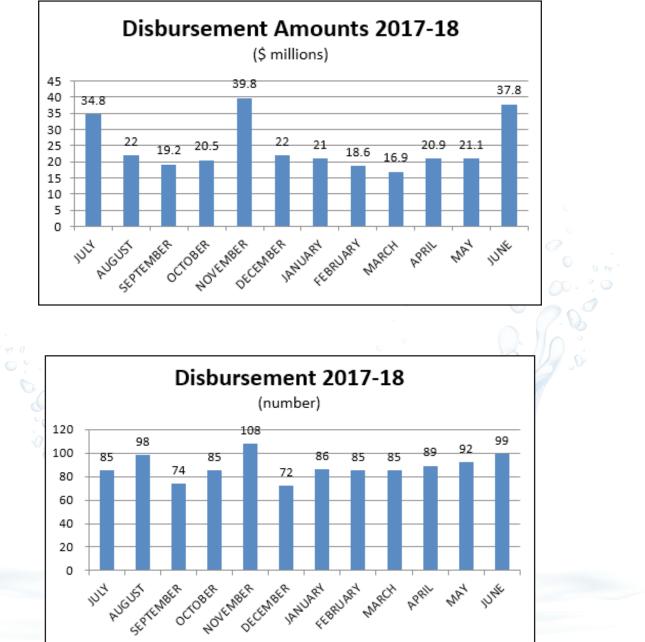

technically complete and ready to move to construction in a timely fashion. The graphs below show the total number and dollar value of applications submitted and approved by board meeting date.

Once projects are approved for funding, recipients solicit bids, enter into an agreement with PENNVEST, commence construction, and can begin drawing down the funding based upon actual costs incurred. Settlement was completed for 54 projects, obligating \$215 million. PENNVEST staff processed

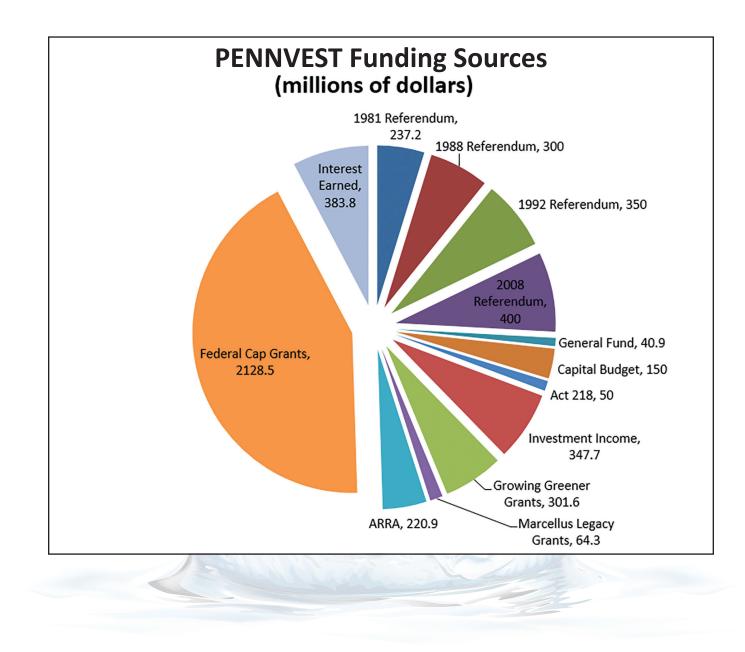

1,058 payment requests equal to approximately \$295 million in disbursements for eligible costs related to previouslyapproved projects. The monthly distribution of the requests and related dollar values are shown in the charts below.

The following chart shows the sources of the funding that PENNVEST uses to finance the drinking water, wastewater, stormwater and non-point source projects that are approved by the Board every year.

The sources include Commonwealth General Obligation bond proceeds approved by a number of referenda, as well as the normal capitalization grant proceeds that PENNVEST receives from the U.S. Environmental Protection Agency. Last fiscal year the amounts received were \$52,518,000 for wastewater projects and \$26,351,043 for drinking water projects. The chart below displays the sources of PENNVEST's funding since the program's inception in 1988.

During much of FY17-18, the organization focused its technology initiatives to increasing productivity and modernizing information systems. This included the implementation of Office 365 (O365) cloud services to enable a more productive employee by allowing access to work from anywhere and the use of different devices and platforms to support an independent mobile workforce. Microsoft Skype for Business was also deployed to improve employee collaboration and sharing information across desktops. Business and technical staff worked together to develop better integration of documents with on-line PENNVEST data collection processes through systems web features that quickly retrieve documents from the agency document management system. Most notable, is the significant effort that has been put into the redesign and modernization of the on-line Funds Disbursement system by using new web development tools and streamlining the on-line processes for a faster and easier system for its users. The new Funds Disbursement system is planned for roll-out in the Fall of 2018.

In the past three decades technology has fundamentally changed the way PENNVEST conducts business. These changes have been from the way the organization manages and stores documents and records, collects and manages information on how it communicates through social media, content and information sharing, and how its employees work. Today, PENNVEST can boast that it is 90% paperless, supports a 100% virtual workforce, and has 100% of its critical line-of-business processes fully automated. In the decades ahead, as PENNVEST seeks to innovate and continuously improve the way it conducts business and provide value-added services to PA citizens, technology will remain absolutely integral to its overall business strategy.

### Looking To The Future/Preparing For Tomorrow

Over the last 30 years the program has provided substantial support to bring traditional drinking water and wastewater facilities of communities into compliance. With these sectors now primarily in compliance, the strength of the revolving loan fund will be providing sustainable funding for repair and replacement of the infrastructure as it starts to reach the end of its useful life, as well as supporting the most prevalent problems associated with non-point source and stormwater pollution. The staff focus is on how best to deliver services and support the clean water needs of communities now and into the future. As part of that effort the program is looking to reinvigorate the technical support by DEP to respond to project needs of communities, increase and expand programs available to agriculture and other non-point source

Administrative Improvements

projects and increase efficiencies through the upgrade of web based systems, and expanded programs to assist with implementation of capital improvement plans and emerging pollutants. Many of these and other advances are expected to be finalized and implemented in the next fiscal year. The work to simplify and streamline the application and review process, while considering innovative methods to address clean water needs, allows staff to focus on the core success of PENNVEST, and remain with the intentional engagement of dedicated individuals working directly with communities to help them solve their water quality issues.

### Memberships and Leadership Positions

PENNVEST staff members were involved in a number of important programs and initiatives during FY 2017-18. Among the activities and organizations with which we were involved were:

- Chair of the Office of General Counsel Finance and Bankruptcy Practice Group
- Board Member Pennsylvania State Employees Credit Union
- National Association of Bond Lawyers
- Chesapeake Bay Program Trading and Offsets Workgroup
- Chesapeake Bay Program Watershed Implementation Plan III Finance Work Group
- American Water Works Association
- Pennsylvania Rural Water Association
- Office of General Counsel, Transactions Practice Group
- Office of General Counsel, Technology Practice Group
- Office of General Counsel, Records Access Management Committee
- Three Rivers Wet Weather Finance Committee
- University of Pittsburgh Regional Water Management Task Force
- Westmoreland County Smart Growth Task Force
- DEP's Technical Assistance Committee
- Appalachian Regional Commission Project Review Committee
- Society of Women Environmental Professionals
- Women in the Environment
- Council of Infrastructure Finance Authorities
- Penn's Corner Alternative Wastewater Committee
- Schuylkill Action Network
- American Society of Civil Engineers

- Water Environment Association
- U.S. Army corps of Engineer's Ohio River Basin Group Enterprise and Infrastructure Committee
- · Leadership Development Institute Alumni Association
- PA Recovery Resource Team: Infrastructure Recovery Workgroup Lead
- Westmoreland County Conservation District Storm Water Management Advisory Committee
- Government Finance Officers Association
- American Water Resources Association

- President Water Coalition of the Lehigh Valley
- Master Watershed Steward Program leader
- Environmental Advisory Councils
- Perkiomen Watershed Conservancy
- Pennsylvania Environmental Council
- Pennsylvania Organization for Watersheds and Rivers
- Pennsylvania Association of Bond Lawyers

### Approved Projects By County (1988 – June 30, 2018)

Board of Directors Pennsylvania Infrastructure Investment Authority Harrisburg, Pennsylvania

We have audited the accompanying financial statements of the Pennsylvania Infrastructure Investment Authority ("PENNVEST"), a component unit of the Commonwealth of Pennsylvania, as of and for the years ended June 30, 2018 and 2017, and the related notes to the financial statements, which collectively comprise PENNVEST's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the PENNVEST's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the PENNVEST's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting

Meeting the Toughest Challenges. Inspiring Confidence.<sup>SM</sup>

### INDEPENDENT AUDITOR'S REPORT

New Jersey p: 609-964-0049 Maryland p: 410-732-4626 Washington, DC p: 202-223-5550

<sup>105</sup> N. 22nd Street, Philadelphia, PA 19103 = p: 215-496-9100 = f: 215-496-0980 = www.milligancpa.com

policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of PENNVEST, as of June 30, 2018 and 2017, and the changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

### **Other Matters**

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 4 through 12, the Schedules of PENNVEST's Proportionate Share of the Net Pension Liability on page 39, the Schedules of PENNVEST's Contributions on page 40, Schedule of PENNVEST's Proportionate Share of Net OPEB Liability on page 41 and Schedule of PENNVEST's Contribution on page 42 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### Other Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise PENNVEST's basic financial statements. The Other Supplemental Information on pages 43 through 49 is presented for purposes of additional analysis and is not a required part of the basic financial statements or required supplementary information.

The Other Supplemental Information on pages 43 through 49 is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The Other Supplemental Information on pages 43 through 49 have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such

information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Other Supplementary Information on pages 43 through 49 is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Schedules of Delinquent Loans on page 50 have not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

### **Change in Accounting Principle**

As discussed in Note 1 to the financial statements, for the year ended June 30, 2018, PENNVEST adopted new accounting guidance, *GASBS No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.* Our opinion is not modified with respect to this matter.

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 18, 2018, on our consideration of PENNVEST's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering PENNVEST's internal control over financial reporting and compliance.

### PENNSYLVANIA INFRASTRUCTURE INVESTMENT AUTHORITY MANAGEMENT'S DISCUSSION AND ANALYSIS, Continued For the Year Ended June 30, 2017

This section of Pennsylvania Infrastructure Investment Authority's ("PENNVEST" or "Program") annual financial report presents the Management's Discussion and Analysis ("MD&A") of PENNVEST's financial performance during the fiscal year that ended June 30, 2018. It is intended to be read in conjunction with the PENNVEST financial statements and accompanying notes, which follow this section.

### FINANCIAL HIGHLIGHTS

In 2018, Total Net Position increased by \$118.6 million. The increase was mainly a net result of Total Assets and Total Liabilities that increased by \$178.8 and \$59.0 million, respectively. Total Assets increased primarily due to the proceeds of debt issuances and other receipts that increased cash and cash equivalents by approximately \$111.9 million and purchases of investments of approximately \$71.0 million. Total Liabilities increased primarily due to issuances of a \$50 million Federal SRF Revenue Bond with \$8.4 million in premium.

### Purpose of Debt Issuance

The Federal SRF Revenue Bond and State Commercial Paper programs were implemented for future leveraging and liquidity, not current financing requirements. Both, are complex financial instruments and by implementing now, it allows PENNVEST future flexibility in servicing the needs of the Commonwealth of Pennsylvania ("Commonwealth"). Funding available to PENNVEST as reflected in our financials represent the pool of resources necessary to address the current and emerging demand for infrastructure funding for private and public entities that need to address water quality issues in the foreseeable future. The principal and interest repayments returned to the fund, are combined with capitalization grants available from the Environmental Protection Agency ("EPA") to ensure a long term sustainable fund that can provide a variety of options that include principal forgiveness, direct loans, extended terms, loan guaranties, investments, and other innovative financing mechanisms to support aid for existing and future water quality capital needs across the Commonwealth. Some emerging demands include:

- Municipalities and other entities that meet certain parameters must obtain National Pollutant Discharge Elimination System ("NPDES") permit coverage for discharges of stormwater from their municipal separate storm sewer systems ("MS4s") to achieve water quality standards. In Pennsylvania there are currently two Large MS4s and 953 Small MS4s. These NPDES permits require implementation of minimum control measures. These measures are expected to be achieved through best management practices along with infrastructure installations that will requiring a funding source to facilitate compliance for these communities. Estimates are in the hundreds of millions of dollars to help in these efforts.
- Half of the land area of Pennsylvania drains to the Chesapeake Bay from four major river basins, and Pennsylvania comprises 35 percent of the entire Chesapeake Bay Watershed. The Chesapeake Bay is impaired by sediment and nutrients that are required to be reduced as part of the Watershed Implementation Plan ("WIP"). Although progress has been made toward those necessary reductions, much more work is necessary to bring the Commonwealth in line with the pollution reduction goals. Though costs vary

### PENNSYLVANIA INFRASTRUCTURE INVESTMENT AUTHORITY MANAGEMENT'S DISCUSSION AND ANALYSIS, Continued For the Year Ended June 30, 2017

depending on the source, it is expected the remaining needed improvements and practices to cost in the realm of an additional \$400 million annually through 2025 to satisfy the WIP.

- increase the next time the survey is completed.
- systems.

In summary, a healthy fund is necessary to ensure communities, and other system owners that funding is available to address their infrastructure needs. The very nature of the industry, and types of projects that are most often funded through the State Revolving Loan Fund, causes these types of projects to have a long lead time to plan and design. Without knowing construction funding is available for the projects to proceed, many projects would not be able or willing to move from planning to design and permitting. The growth of the fund has allowed PENNVEST to be well positioned to help communities and other system owners meet the financial challenges that lie ahead as they seek out options to pay for the capital projects necessary to maintain their current systems and develop solutions to storm water management and emerging contaminant issues.

• Pennsylvania contains many older communities that implemented drinking water and wastewater infrastructure to accommodate a substantial population centers across the state. That infrastructure has been aging and is now in the need of various upgrades, updates, replacements and in some cases extension of service to support regional alternatives. In addition to the infrastructure, the public health hazard of lead and copper leaching from aged drinking water lines and plumbing materials presents another layer of public health hazard that is now being realized in today's communities. EPA's drinking water needs assessment estimates that Pennsylvania will need to invest \$16.8 billion in drinking water infrastructure over the next 20 years. Additionally, EPA's Clean Watersheds Needs Survey last conducted in 2008 estimates Pennsylvania will need to invest another \$18.2 billion for wastewater and NPS improvements which will likely

• Contaminants of emerging concern, including pharmaceuticals and personal care products, are increasingly being detected at low levels in surface water causing concern that these compounds may have an impact on aquatic life. As these contaminants are further studied it is important that PENNVEST be positioned to respond to any infrastructure needs to address aquatic and public health concerns should they occur.

• Finally, Per- and Polyfluoroalkyl Substances ("PFAS"), chemicals manufactured and used in a variety of industries within the United States and the globe, have been identified in drinking water supplies. Testing is in its infancy to determine impacts, health risks, and courses of action to address presence in drinking water supplies. As more information and data is gathered and the understanding of the effects and impacts of PFAS evolves, it's necessary that PENNVEST again be positioned to respond to communities needs to implement infrastructure to treat the PFAS and protect public health. PENNVEST has already funded its first PFAS project in 2017 with additional communities now identify the presence of PFAS within their communities drinking water

#### PENNSYLVANIA INFRASTRUCTURE INVESTMENT AUTHORITY MANAGEMENT'S DISCUSSION AND ANALYSIS, Continued For the Year Ended June 30, 2017

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This annual report consists of three parts: management's discussion and analysis, financial statements, and supplemental information. The financial statements also include notes that explain in more detail some of the information in the financial statements. The MD&A serves as an introduction to the basic financial statements and supplementary information and presents management's examination and analysis of PENNVEST's financial condition and performance.

#### **REQUIRED FINANCIAL STATEMENTS**

The financial statements of PENNVEST report information about PENNVEST using accounting methods similar to those used by private sector companies. These statements offer short-term and long-term financial information about its activities.

The Statements of Net Position include all PENNVEST's assets, deferred outflows of resources, liabilities and deferred inflows of resources and provides information about investments, revenue bonds, and federal government payments. All the current year's revenues are accounted for in the Statements of Revenues, Expenses and Changes in Net Position. These statements measure the fiscal condition of PENNVEST's operations over the past year and can be used to determine whether PENNVEST has remained creditworthy and in a positive financial order. The final required financial statements are the Statements of Cash Flows. The primary purpose of these statements is to provide information about PENNVEST's cash receipts and cash disbursements, net changes in cash resulting from operations, investing, and financing activities and provides answers to such questions as, where did the cash come from, what was the cash used for, and what was the change in cash balance during the report period.

# FINANCIAL ANALYSIS

The issued report provides comparative statements for a two-year period. This presentation enables a reader to determine by category the basic analysis of a year's activity. The Statements of Net Position, and the Statements of Revenues, Expenses, and Changes in Net Position report information about PENNVEST and provide an excellent examination of financial performance. These two statements report the net position of PENNVEST over the course of two years. Over time, increases or decreases in PENNVEST's net position is one gauge of whether its financial health is improving or deteriorating. This alone will not provide the total picture of financial health but it is a good indicator. Additional information such as the status of assets and liabilities and the reduction in long-term debt will provide a larger picture of the status of fiscal health.

The following table summarizes the net position for fiscal years ended June 30, 2018 and 2017.

6

#### FINANCIAL ANALYSIS, Continued

|  | Condensed Staten |              |
|--|------------------|--------------|
|  | 2018             | 2017         |
| Current Assets                         | \$ 1,756,147     | \$ 1,607,316 |
| Noncurrent Assets                      | 2,385,903        | 2,355,972    |
| Total Assets                           | 4,142,050        | 3,963,288    |
| Deferred Outflows                      | 1,178            | 1,685        |
| Total Assets and Deferred Outflows     | 4,143,228        | 3,964,973    |
| Current Liabilities                    | 82,314           | 68,893       |
| Noncurrent Liabilities                 | 285,144          | 239,883      |
| Total Liabilities                      | 367,458          | 308,776      |
| Deferred Inflows                       | 1,167            | 178          |
| Total Liabilities and Deferred Inflows | 368,625          | 308,954      |
| Total Net Position                     | \$ 3,774,603     | \$ 3,656,019 |

The above table provides several financial indicators that depict the fiscal health of PENNVEST. First, Total Net Position increased in 2018 by 3.2%. The Federal Clean Water State Revolving Fund ("CWSRF") has a significant impact on the Total Net Position line, as it represents 59.6% of the Total Net Position. This reflects the strength of the Federal Clean Water program.

Current Assets increased in 2018 by \$148.8 million or 9.3%. The increase in Current Assets was largely the result of proceeds from the issuances of Commercial Paper of approximately \$40 million, a \$50 million Federal SRF Revenue Bond with \$8.4 million in premiums and the final \$16.3 million in General Obligation bond proceeds related to the "2008 PENNVEST Assistance Act".

Noncurrent Assets increased in 2018 by \$29.9 million or 1.3%. This increase is due to increases in the size of the outstanding loan portfolio. PENNVEST is a Revolving Loan Program. In a Revolving Loan Program, principal and interest payments received from borrowers are recycled back into the program and are available for future loan disbursements. The ability to encumber against future year revenues is critical for a revolving program. Noncurrent Loans Receivable, Gross, are those future loans that are due in more than one year. The Noncurrent Asset total is reduced by the Allowance for Loan Losses which is \$45.0 million for the year ended June 30, 2018 or 1.7% of the total outstanding loan portfolio. The loan loss allowance is an estimate of the amount of Loans Receivable that will not be collected.

Current Liabilities increased in 2018 by \$13.4 million or 19.5%; driven by increased Commercial Paper issuances of \$40.4 million, offset by decreases in Securities Lending Obligations, as

Table 1 (In Thousands)Condensed Statement's of Net Position

### PENNSYLVANIA INFRASTRUCTURE INVESTMENT AUTHORITY MANAGEMENT'S DISCUSSION AND ANALYSIS, Continued For the Year Ended June 30, 2017

described in Note 2, of \$30.5 million. In addition, the current portion of revenue bonds payable increased by \$4.0 million due to the issuance of \$50 million Federal SRF Revenue Bond.

Noncurrent Liabilities increased in 2018 by \$45.3 million or 18.9%. The increase is primarily the result of the issuance of a \$50 million Federal SRF Revenue Bond with \$8.4 million in bond premium. These additions were offset by debt paydowns on outstanding General Obligation bonds of \$13.9 million and Revenue bonds of \$2.2 million. In addition, there was an increase in OPEB-related liabilities of \$6.5 million due to an accounting methodology change, as described in NOTE 1.

PENNVEST Program's operating goal in recent years has been balancing operating revenues and expenses without compromising the agency's ability to execute the mission. This year that goal was not met, as the agency incurred operating losses of \$6.1 million; due to an increase in the Loan Loss Reserves of \$4.9 million and decrease of Interest on Loans Receivable of \$1.4 million related to the change in mix of the effective interest rate of the portfolio. The operating loss slightly offset the amount of Capital Contributions (i.e. Federal Grants) of \$84.5 million and income earned on Investments of \$47.5 million, leaving PENNVEST with a significant increase in Total Net Position of \$118.6 million.

# **OPERATING REVENUES AND EXPENSES**

The Program has not received Commonwealth appropriations for operations since 1996. The cost of the Program has been funded from investment earnings, the repayment of loans, and reimbursement of allowable federal administrative expenses.

| Table 2 (In                         | Thousands)                |            |

| Increase In Net Position            | \$ 125,625                | \$ 143,004 |

# **OPERATING REVENUES AND EXPENSES, Continued**

The Operating Revenues, in 2018 were driven by the Other Federal and State Operating Grants of \$33.4 million, and interest repayments on loans of \$36.4 million.

The Total Operating Expenses remaining relatively flat, slightly decreased by .8%, or \$.6 million in 2018. The amount disbursed as Grants/Principal Forgiveness is also a direct effect of how many applicants qualify for grants or principal forgiveness. There has been a decrease in the amount of Environmental Stewardship funds and the Marcellus Legacy fund to fund grants to program participants. PENNVEST Grants/Principal Forgiveness funding enables economically challenged borrowers to fund projects that otherwise would not be obtainable.

Table 3 examines the loan loss allowance for each of the loan portfolios of PENNVEST. The loan loss is an allowance in the Statements of Net Position, which reflects the amount which, in management's judgment, establishes an adequate allowance to report possible losses on loans.

Table 4 depicts the PENNVEST loan portfolios, excluding On-Lot Loans, by risk code classification. The largest dollar change year over year occurred in the Speculative project rating. This risk code represented \$807 million or 31.3% of the 2018 total. The largest percent change in 2018 was in the Concern High Rate Impact of a 67.6%. This code represents the concern of high user rates of the borrower of PENNVEST funds. The rating of Non-Speculative reflects that the projects receiving this rating are not suspected financially to be able to repay their PENNVEST loans. Overall the risk assessment of the loan portfolio remains good as the Non-Speculative rating represents 65.8% of the total. 1

#### PENNSYLVANIA INFRASTRUCTURE INVESTMENT AUTHORITY MANAGEMENT'S DISCUSSION AND ANALYSIS, Continued For the Year Ended June 30, 2017

#### **REVENUES**

As PENNVEST is a Revolving Loan Program, it is essential that loan repayments be made in a timely manner. Over 99.2% of all loans in every PENNVEST portfolio are submitting repayments electronically with the electronic funds transfer program offered under the Automatic Clearing House (ACH) system; however, funds must be available for payment in the borrowers' accounts. By all accounts, the PENNVEST ACH system is working and funds are available for repayment. Table 5 illustrates the loan receipts by the different loan portfolios of PENNVEST.

As can be observed from Table 5, loan receipts vary for each of the PENNVEST portfolios. These receipts are categorized as deposits that do not include any transfers. The CWSRF Program had the largest dollar collection of \$125.4 million or 54.1% of the total collected. The CWSRF is a major portfolio in the PENNVEST program. Total loan receipts decreased by \$4.3 million from 2017, which is reflective of a higher than usual amount of prepayments of loans in 2018.

| Table 5 (In Thousands)         Loan Receipts from Customers |            |            |  |
|---|------------|------------|--|
| Loan disbursements  | 2018       | 2017       |  |
| CWSRF Federal Loans   | \$ 125,356 | \$ 136,116 |  |
| DWSRF Federal Loans   | 41,927     | 42,819     |  |
| State and Revenue Bond Loans                                | 64,426     | 57,074     |  |
| Totals  | \$ 231,709 | \$ 236,009 |  |

Table 6 is an illustration of the PENNVEST disbursements to customers. The total disbursement of \$230.2 million reflects an increase of \$95.6 million from 2017 or an increase of 71.1%. The CWSRF Federal disbursements were the primary driver of this increase, making up 67% of the Total Disbursements. The large increase in the CWSRF was heavily influenced by an increase in applications over the past two years and a large loan with the City of Reading, which accounted for \$59.4million in disbursement in the current fiscal year or 25.8% of Total Disbursements.

| All Portfolios Disbursements | \$        | 230,156       | \$    | 134,543 |

#### LONG-TERM DEBT ADMINISTRATION

In 2015, PENNVEST issued Revenue Bonds Series 2015A, in the amount of \$65.0 million. The bonds were issued at a premium of \$8.3 million. The proceeds of the bonds together with other available funds were used to pay off the outstanding commercial paper.

In 2018, PENNVEST issued Revenue Bonds Series 2018A, in the amount of \$50.0 million. The bonds were issued at a premium of \$8.4 million. The issuance was the first utilizing the Federal SRF funds as collateral for the issuance.

At June 30, 2018, PENNVEST had \$107.9 million of revenue bond debt and \$50.4 million commercial paper debt outstanding. Revenue Bonds Payable increased in 2018 by \$55.7 million from the previous year due to issuance of the new debt. The following is a summary of Revenue Bond activity for the 2017-2018 fiscal year.

#### Table 7 (In Thous

Outstanding debt July 1, 20 Less: Principal payments Add: 2017 Debt Issued Net change in unamortized

Outstanding debt at June 3

See Note 7 to the financial statements for detailed descriptions of the outstanding debt and the current year activity.

#### FUTURE PROGRAMS UNDER DEVELOPMENT

#### Commercial Paper Programs

PENNVEST established a Commercial Paper (CP) program in 2010-2011 in our Commonwealth program. This mechanism allows PENNVEST to better manage our cash flows so that funds on hand with the Commonwealth Treasurer can be invested for a longer term and a higher rate than would otherwise be the case.

PENNVEST plans to expand its Commercial Paper program to both the CWSRF and DWSRF programs during 2018-2019. PENNVEST entered into a Federal SRF Trust Indenture and First Supplemental Trust agreements and issued \$50 million in SRF Revenue Bonds in January 2018. These Indentures allow for the issuance of revenue bonds, commercial paper, and implementation of a loan/bond guarantee program. It is cross-collateralized with both the CWSRF and DWSRF. PENNVEST is currently drafting an offering memorandum of up to \$50 million for the issuance of Extended Maturity Commercial Paper ("EMCP") notes as an additional tool to leverage the SRF funds and support future needs of the program. Zion's Bank was selected as the Trustee.

#### PENNSYLVANIA INFRASTRUCTURE INVESTMENT AUTHORITY MANAGEMENT'S DISCUSSION AND ANALYSIS, Concluded For the Year Ended June 30, 2017

#### FUTURE PROGRAMS UNDER DEVELOPMENT, Continued

#### Nutrient Trading

PENNVEST continued the Nutrient Credit Trading Program during 2017-2018 as a clearing house for nitrogen and phosphorous credits and to also facilitate Bilateral Agreements between credit producers and municipalities wanting to purchase the credits outside of the auction process.

#### Loan Guarantee Program

During 2017-2018 PENNVEST continued developing a Loan Guarantee program to supplement its loan program. This allows PENNVEST to provide further assistance to the borrowers when the cost of the project is more than PENNVEST can lend. The Loan Guarantee allows the borrowers to find private financing for the balance of a project with a reduced interest rate.

#### Mixed Use Forested Buffers

In fiscal year 2016-2017 PENNVEST approved the transfer of up to \$3 million in grant capacity (\$1 million in each of the next three years) to the Department of Conservation and Natural Resources to administer a program to install and support mixed use forested buffers in an effort to provide information and data necessary to build a business case demonstrating that buffers can be income producing and part of a long term sustainable funding source for similar projects.

#### CONTACTING PENNVEST'S DIRECTOR OF FINANCIAL MANAGEMENT

This financial report is designed to provide bondholders, investors, creditors, and federal and state agencies with a general overview of PENNVEST's finances and to demonstrate PENNVEST's accountability as a governmental agency. If you have any questions about this report or need additional financial information, contact Christopher Kelliher, Chief Financial Officer, PENNVEST, Room 434 Forum Building, 607 South Drive, Harrisburg, PA 17120.

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **Organization**

The Pennsylvania Infrastructure Investment Authority ("PENNVEST") is an instrumentality of the Commonwealth of Pennsylvania ("Commonwealth") created by Act 16 of the General Assembly in March of 1988 (the "PENNVEST Act"). The purpose of PENNVEST is to finance long-term, low-interest loans for corporations, partnerships, sole proprietorships, non-profit organizations, authorities, and municipalities for repair, construction, reconstruction, rehabilitation, extension, and improvement of drinking water, storm water, and wastewater systems. PENNVEST's On-Lot Program provides funding for the improvement of septic systems. PENNVEST is funded through revenue bonds, federal grants, Commonwealth appropriations, Commonwealth general obligation bonds, and the use of recycled loan repayments.

A governing body consisting of thirteen members, the chairman of which is a Governor appointee, administers the operations of PENNVEST. Other members include cabinet secretaries, legislators, and local government leaders, as well as representatives of the engineering community and the drinking water and wastewater industries.

PENNVEST, which is a component unit of the Commonwealth reporting entity, is presented as an Enterprise Fund on the accrual basis of accounting. Criteria considered in making this determination include the Commonwealth's appointment of PENNVEST's Board and the Commonwealth's ability to impose its will on PENNVEST.

#### Measurement Focus and Basis of Accounting

PENNVEST's activities are accounted for on a cost of services or "capital maintenance" approach under the economic resources measurement focus. This means that all assets and all liabilities (whether current or noncurrent) associated with its activities are included on its statement of net position. The operating statements present increases (revenues) and decreases (expenses) in total net position.

PENNVEST utilizes the accrual basis of accounting wherein revenues are recognized in the period earned and expenses are recognized when they are incurred.

Operating revenues and expenses consist of those revenues and expenses that result from the ongoing principal operations of PENNVEST. Operating revenues consist primarily of interest on loans receivable, and federal and state grants given to program participants as grants or "principal forgiveness". Nonoperating revenues and expenses consist of those revenues and expenses that are related to financing and investing types of activities, such as investment income/loss.

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

#### Measurement Focus and Basis of Accounting, Continued

When an expense is incurred for purposes for which there are both restricted and unrestricted resources available, it is PENNVEST's policy to apply those expenses to restricted resources to the extent that they are available and then to unrestricted resources.

The accounting and reporting policies of PENNVEST conform to the accounting rules prescribed by the Governmental Accounting Standards Board ("GASB").

#### Cash and Cash Equivalents

For purposes of the statements of cash flows, PENNVEST considers all highly liquid investments with an initial maturity of three months or less at the time of purchase to be cash equivalents.

#### Investments

Investments are stated at fair value based on quoted market values.

#### **Capital Contributions**

Capital contributions represent contributions from the Commonwealth of Pennsylvania and the federal government for the loan programs.

#### Allowance for Loan Losses

The allowance for loan losses is used to report possible future losses on loans outstanding. Loan losses and recoveries of previously charged-off loans are charged or credited directly to the allowance for loan losses. The provision for loan losses, which is charged to current operations, reflects the amount, which in management's judgment establishes an adequate allowance to report possible losses on loans. Management's judgment is based upon a continuing review of the loan portfolio, past collection experience, and current economic conditions. While management uses available information to recognize losses on loans, future adjustments to the allowance may be necessary based on changes in economic conditions.

#### Investment/Interest Income

Interest income on investment securities is recorded when earned. Interest income on loans is accrued based on methods that result in a constant yield when related to the principal amounts outstanding.

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

#### **Restricted Net Position**

Restricted net position represents net position that is restricted for revolving loans in the Federal Revolving Clean Water and Drinking Water Programs.

#### Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### Deferred Outflows/Inflows of Resources

The Statements of Net Position report a separate section for deferred outflows and inflows of resources. These separate financial statements elements represent consumption/acquisition of net position that applies to a future period(s), and so will not be recognized as an outflow/inflow of resources until then. PENNVEST has two items that gualifies for reporting in this category: deferred outflows/inflows related to pension and other post-employment benefits.

#### Postemployment Benefits Other Than Pensions ("OPEB")

For purposes of measuring the PENNVEST 's OPEB liability, deferred outflows and inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Commonwealth's Retired Employees Health Plan ("REHP") and additions to/deductions from the REHP 's fiduciary net position have been determined on the same basis as they are reported in the Commonwealth's Comprehensive Annual Financial Report ("CAFR"). For this purpose, the REHP recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value.

# **Current Period Adjustments**

Effective July 1, 2017, PENNVEST implemented the Governmental Accounting Standards Board (GASB) Statement No. 75, "Accounting, and Financial Reporting for Postemployment Benefits Other Than Pensions (OPEB)". The implementation of GASB 75 established new standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and expenses related to OPEB. The implementation of GASB 75 resulted in a restatement of the previously reported GASB 45 OPEB liability, therefore, the Fund's beginning Net Position has also been restated.

# Changes as of June 30, 2018 were resta

Net Position, as previously reported at Jun Cumulative effect of GASB 75 implement Net Position, as restated, at July 1, 2017

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

#### Pending Changes in Accounting Principles

GASB Statement No. 87, "*Leases*" was issued in June 2017, with an effective date for reporting periods beginning after December 15, 2019, earlier application is encouraged: This statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. PENNVEST's management is evaluating the impact of this statement on the financial statements.

GASB Statement No. 88, "Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements" was issued in April 2018, with an effective date for reporting periods beginning after June 15, 2018, earlier application is encouraged: This statement defines debt for purposes of disclosure in notes to financial statements as a liability that arises from a contractual obligation to pay cash (or other assets that may be used in lieu of cash) in one or more payments to settle an amount that is fixed at the date the contractual obligation is established. It requires additional essential information related to debt be disclosed in notes to financial statements, including unused lines of credit; assets pledged as collateral for the debt; and terms specified in debt agreements related to significant events of default with finance-related consequences, significant termination events with finance-related consequences, and significant subjective acceleration clauses. PENNVEST's management is evaluating the impact of this statement on the financial statements.

GASB Statement No. 89, "Accounting for Interest Cost Incurred Before the End of a Construction Period" was issued in June 2018, with an effective date for reporting periods beginning after December 15, 2019, earlier application is encouraged: This statement establishes accounting requirements for interest cost incurred before the end of a construction period. Such interest cost includes all interest that previously was accounted for in accordance with the requirements of paragraphs 5–22 of Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements, which are superseded by this statement. This statement requires that interest cost incurred before the end of a construction period is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or Enterprise Fund. This Statement will have no impact on PENNVEST's financial statements.

#### 2. DEPOSIT AND INVESTMENT RISK

The trust indenture and the Commonwealth fiscal code, as amended, authorizes PENNVEST to invest in obligations of the U.S. government and government-sponsored agencies and instrumentalities; certificates of deposit, fully insured or collateralized; certain commercial paper and repurchase agreements; highly rated bank promissory notes or investment funds or trusts; and "prudent man" investments as determined by PENNVEST's depository (i.e. Commonwealth Treasury Department).

The majority of PENNVEST's investments are invested in the Common Investment Pool of the Commonwealth which is managed by the Commonwealth's Treasury Department (the "Treasury Department").

The deposit and investment policies of the Treasury Department are governed by Sections 301, 301.1 and 505 of the Pennsylvania Fiscal Code (Act of 1929 P.L. 343), and Section 321.1 of the Pennsylvania Administrative Code (Act of 1929 P.L. 177. No. 175).

Treasury deposits must be held in insured depositories approved by the Board of Finance and Revenue and must be fully collateralized. The Pennsylvania Fiscal Code grants the Treasury Department the authority to invest in any deposits and investments. This authority is subject, however, to the exercise of full judgment and care under the prevailing circumstances. Persons of prudence, discretion, and intelligence familiar with such matters in regard to the permanent disposition of the funds need to consider the probable income to be derived therefrom, as well as the probable safety of the capital.

The Treasury Department manages the Commonwealth Investment Program ("CIP"). The Treasury Department is required to exercise careful judgment in determining those investments that are appropriate for each Commonwealth fund based upon distinct investment criteria such as income needs, cash flow requirements, investment time horizons, and risk tolerance. All investments are made in accordance with the statutory authority described in the preceding paragraph. The CIP investment pool structure invests in both equity securities and fixed income securities to achieve the investment objectives of the funds of the CIP. Asset allocation targets among cash, equity securities, fixed income securities and alternatives are established in order to meet these overall objectives.

The Treasury Department has created two separate pools within the CIP, each with its own distinct investment strategies, goals, and holdings that reflect the differing needs of Commonwealth funds for income, cash flows, and investment risk tolerance. A highly liquid vehicle, Pool 99, consists of short-term fixed income and cash and provides a high degree of liquidity and security but only modest returns. A less liquid vehicle, Pool 198, allows for investment in assets that offer potentially higher returns with commensurate risk.

# 2. DEPOSIT AND INVESTMENT RISK, Continued

As of June 30, 2018 and 2017, PENNVEST's investments, excluding securities lending balances (see below), held in the Commonwealth investment pools, were \$1,443,216 and \$1,372,184, respectively.

As of June 30, 2018 and 2017, PENNVEST also had bank balances of cash and cash equivalents in the amount of \$133,880 and \$22,038, respectively. These balances were uninsured and collateralized with securities held by the pledging financial institution's trust department or agent but not in the PENNVEST's name.

Securities Lending Program

The Treasury Department provides a securities lending program in which the various investments under custody of the Treasury Department participate. A contract between the Treasury Department and its custodian, acting as a lending agent, provides that the custodian lends securities owned by the participants to independent brokers, dealers and banks, acting as borrowers in exchange for collateral.

Lending agreements between the custodian and the borrowers require that the custodian receive collateral from the borrowers in exchange for the securities lent. Securities lent consist of both domestic and foreign equity securities and United States Treasury and foreign debt obligations. For securities lent which are not denominated in United States dollars or whose primary trading market is located outside the United States, the fair value of the collateral received must be at least 105 percent of the fair value of the securities lent. For all other securities lent, the fair value of the collateral received must be at least 102 percent. Practically all collateral received consists of cash. A small portion of collateral received consists of letters of credit, United States Treasury, and corporate and/or foreign debt obligations. Collateral is marked to market daily. Additional collateral from borrowers is required if the fair value of the collateral received declines below lending agreement requirements. The lending agent cannot pledge or sell collateral securities received unless the borrower defaults. Accordingly, neither collateral securities received from borrowers nor the related obligations to borrowers are reported.

To the extent collateral received consists of cash, the lending agent may use or invest the cash in accordance with reinvestment guidelines approved by the Treasury Department. Either the participant or the borrower may terminate lending agreements on demand. Lending agreements are typically of very short duration – usually overnight. Therefore, the duration of lending agreements do not generally match the maturities of the investments made with cash collateral.

The resulting rate risk is mitigated by the lending agent's ability to reallocate lending agreements among program participants.

#### 2. DEPOSIT AND INVESTMENT RISK, Continued

The program requires that the lending agent indemnify the Treasury Department for all claims, liabilities, and costs resulting from the lending agent's negligence or intentional misconduct. During the fiscal years ended June 30, 2018 and 2017, there were no failures by any borrower to return securities lent or pay distributions thereon. Also, there were no losses resulting from a lending agent or borrower default and there were no Treasury Department restrictions on the amounts of the loans that could be made.

As of June 30, 2018 and 2017 there was no Treasury Department or participant credit risk to the borrowers because the fair value of collateral received was not less than the fair value of the securities lent. As of June 30, 2018 and 2017, PENNVEST's portion of securities lending collateral within the Commonwealth Investment Pool was \$8,936 and \$39,454, respectively.

#### 3. FAIR VALUE MEASUREMENTS

PENNVEST categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. There were no Level 1 or Level 3 investments at June 30, 2018 and 2017. PENNVEST has the following recurring fair value measurements:

- month United States Treasury Bill Index.
- Indices.
- 4. LOANS RECEIVABLE

PENNVEST has loans outstanding throughout the Commonwealth. The eleven largest loans amount to 12%, of gross loans receivable at June 30, 2018 and 2017. The majority of loans are disbursed to municipal governments of the Commonwealth and are collateralized by a pledge of the general taxing powers of the municipal governments or revenue streams generated by the municipal governments.

• Level 2 - Commonwealth Investment Program Pool 99 ("Pool 99") of \$274,762 and \$247,123 as of June 30, 2018 and 2017, respectively, are valued using a share-based valuation structure (net asset value). Pool 99 seeks to maintain a stable net asset value per share of \$1. Pool 99 performance is benchmarked against the yield on Merrill Lynch three-

• Level 2 – Commonwealth Investment Program Pool 198 ("Pool 198") of \$1,168,454 and \$1,125,061 as of June 30, 2018 and 2017, respectively, are valued using a share-based valuation structure (net asset value). Pool 198 is benchmarked to a blend of Standards and Poor's 500, Morgan Stanley Capital International All County World Index Ex-U.S., Barclays Capital U.S. Aggregate Bond, and Merrill Lynch 6-month U.S. Treasury Bill

#### 4. LOANS RECEIVABLE, Continued

PENNVEST currently provides loans for projects which are expected to lead to an effective solution to problems experienced with drinking water, wastewater treatment, or storm water systems. The term of loans is normally between 20 and 30 years. The minimum interest rate on a loan is 1.00%. Detailed guidelines are established in the PENNVEST Act for the maximum interest rate. The actual interest rates ranged from 1.00% to 4.05% and 1.00% to 4.19% at June 30, 2018 and 2017, respectively.

At June 30, 2018 and 2017, PENNVEST had approved approximately \$381,827 and \$512,000, respectively, of loan funds that had not yet been disbursed. The monies needed to fund these loans will be generated from contributions by the federal government or the Commonwealth of Pennsylvania, revenue bonds, and principal repayments on existing loans.

Loans receivable, gross, at June 30 are as follows:

|                               | 2018         | 2017        |
|-------------------------------|--------------|-------------|
| Displayed as:                 |              |             |
| Current portion               | \$ 163,965   | \$ 164,208  |
| Noncurrent portion            | 2,415,883    | 2,381,082   |
| Total loans receivable, gross | \$ 2,579,848 | \$2,545,290 |

# 5. ALLOWANCE FOR LOAN LOSSES

Changes in allowance for loan losses during years ended June 30 are as follows:

| a  | 2018               | 2017               |
|--|--------------------|--------------------|
| Balance, beginning of year<br>Provision(Recovery) of loan losses | \$ 40,110<br>4,870 | \$ 40,826<br>(716) |
| Balance, end of year   | \$ 44,980          | \$ 40,110          |

# 6. SHORT-TERM OBLIGATIONS

During fiscal years 2018 and 2017, PENNVEST issued short-term obligations in the amount of \$40,366 and \$10,005, respectively, to finance the issuance of loans to program participants. These obligations are issued in the form of commercial paper, and bear interest, which is due upon maturity. Interest rates on these instruments ranged from .85% to 1.75% and .85% to .91% during 2018 and 2017, respectively, with no maturity being greater than 120 days. Changes in short-term obligations for the fiscal years ended June 30, 2018 and 2017 were:

#### 6. SHORT-TERM OBLIGATIONS, Continued

#### 7. REVENUE BONDS PAYABLE

In June 2015, PENNVEST issued Revenue Bonds Series 2015A in the amount of \$65,000. The Bonds were issued at a premium of \$8,257. The proceeds of the bonds were used to pay at maturity on July 1, 2015 the aggregate principal amount of PENNVEST's Tax-Exempt Commercial Paper Revenue Notes, Series 2010A, plus accrued interest, and pay the costs of issuing the 2015 Bonds.

In January 2018, PENNVEST issued State Revolving Funds ("SRF") Bond Series 2018A in the amount of \$50,000. The Bonds were issued at a premium of \$8,387. The proceeds of the 2018 SRF bonds, together with other available funds, will be applied (i) to finance costs of certain wastewater and drinking water projects for governmental entities and other eligible borrowers pursuant to the PennVEST Leveraged State Water Pollution Control Revolving Fund Program (Clean Water SRF Program) and the PennVEST Leveraged State Drinking Water Revolving Fund Program (Drinking Water SRF Program), and (ii) to pay the costs of issuing the 2018 SRF Bonds.

Changes in revenue bonds payable for the fiscal years ended June 30, 2018 and 2017 are as follows:

|   | Begin | ning Balance |     |           |     |         | End  | ling B | alance at | Amo    | ounts Due |

|     |           |            | 0        |            | 0 🕥 |

Under the terms of the debt issue described above, PENNVEST is required to maintain certain balances in restricted trust accounts, make timely payments to the trustee accounts, and pledge loans that provide cash flow necessary to service the debt.

# 8. DUE TO THE COMMONWEALTH OF PENNSYLVANIA

In April 2013, a Commonwealth bond issue was closed in which \$90,000 of bonds were issued for PENNVEST loans under the 1992 Referendums. Net proceeds from the bonds were \$102,677, including a premium of \$12,677. The net proceeds received by PENNVEST will be repaid quarterly on January 1, April 1, July 1, and October 1 to the Commonwealth over a 20-year term with a 1% interest rate.

In October 2011, a Commonwealth bond issue was closed in which \$46,000 of bonds were issued for PENNVEST loans under the 1992 Referendums. Net proceeds from the bonds were \$51,826, including a premium of \$5,826. The net proceeds received by PENNVEST will be repaid quarterly on February 1, May 1, August 1, and November 1 to the Commonwealth over a 20-year term with a 1% interest rate.

In June 2007, a Commonwealth bond issue was closed in which \$15,000 of bonds were issued for PENNVEST loans under the 1992 Referendums. Net proceeds from the bonds were \$14,764, including a discount of \$196 and underwriters insurance costs of \$40. The net proceeds received by PENNVEST will be repaid semi-annually on May 1 and November 1 to the Commonwealth over a 20-year term with a 1% interest rate.

In December 2006, a Commonwealth bond issue was closed in which \$50,000 of bonds were issued for PENNVEST loans under the 1992 Referendums. Net proceeds from the bonds were \$52,877, including a premium of \$2,937 and underwriters insurance costs of \$60. The net proceeds received by PENNVEST will be repaid quarterly on February 1, May 1, August 1, and November 1 to the Commonwealth over a 20-year term with a 1% interest rate.

In December 2005, a Commonwealth bond issue was closed in which \$50,000 of bonds were issued for PENNVEST loans under the 1988 and 1992 Referendums. Net Proceeds from the bonds were \$53,334, including a premium of \$3,413 and underwriters insurance costs of \$79. Of the net proceeds received by PENNVEST, \$24,727 was a contribution of capital that does not have to be repaid and \$28,607 must be repaid quarterly on February 1, May 1, August 1, and November 1 to the Commonwealth over a 20-year term with a 1% interest rate.

A summary of the required payments at June 30, 2018 are as follows:

| Ending    | P  | rincipal | ø In | nterest | Total         |  |
|-----------|----|----------|------|---------|---------------|--|
| 2019      | \$ | 12,248   | \$   | 1,727   | \$<br>13,975  |  |

|           |    |          | 27   |         |               |  |

# 9. CAPITAL CONTRIBUTIONS

The Commonwealth of Pennsylvania has authorized the issuance of \$1,430,000 of general obligation bonds and appropriated the proceeds to PENNVEST for the improvement of water and sewer systems in the Commonwealth. Proceeds include \$230,256 approved by the electorate in 1981, \$300,000 approved by the electorate in 1988, \$350,000 approved by the electorate in 1992, \$150,000 under the provisions of P.L. 343 No. 176 as authorized by the PENNVEST Act of 1988, and \$400,000 approved by the electorate in 2008. PENNVEST is authorized to utilize the proceeds for loans to borrowers. All but \$300,000 of the proceeds is considered to be revolving, as such, the principal and interest received on the loans are not required to be repaid to the Commonwealth. The balance of the proceeds, also used for loans to borrowers, ultimately received from the bond issues will require repayment as described in Note 8.

PENNVEST has also received approval for \$1,596,299 and \$630,655 in Federal loan funds for water pollution control and drinking water, respectively, at June 30, 2018. Of the \$1,596,299 and \$630,655 approved, \$1,532,078 and \$590,394, respectively, have been received as of June 30, 2018. For the period July 1, 2017 through June 30, 2018, \$52,518 and \$26,278 of Federal funds were received for water pollution control and drinking water, respectively. The State match for water pollution control and drinking water programs for the period July 1, 2017 through June 30, 2018, was \$12,844 and \$6,840, respectively. These funds have or will be utilized to make loans and the proceeds from repayments can be utilized to make new loans in the future.

The required cumulative State match for the disbursed Federal loan funds for water pollution control and drinking water at June 30, 2018, was \$319,011 and \$125,961, respectively. As of June 30, 2018, \$321,504 and \$129,878 was the cumulative State match on disbursed loans for water pollution control and drinking water, respectively. All State match must be funded by the end of the award period.

The required cumulative State match for the disbursed Federal loan funds for water pollution control and drinking water at June 30, 2017, was \$295,914 and \$109,892, respectively. As of June 30, 2017, \$298,156 and \$114,043 was the cumulative State match on disbursed loans for water pollution control and drinking water, respectively. All State match must be funded by the end of the award period.

PENNVEST has been authorized by the PENNVEST Act to make grants to participants in the loan programs, if deemed necessary, to financially assist the community. As of June 30, 2018 and 2017, PENNVEST has authorized unfulfilled grant commitments of \$37,827 and \$47,518, respectively, remaining.

For the years ended June 30, 2018 and 2017, capital contributions were \$84,508 and \$71,263, respectively. State and federal funded grants and principal forgiveness to program participants of \$51,938 and \$52,418 are reported as operating expenses, for the years ended June 30, 2018 and 2017, respectively.

#### **10. RELATED PARTY TRANSACTIONS**

PENNVEST contracts for services necessary to carry out its operations from various Commonwealth of Pennsylvania departments and agencies. PENNVEST paid the following departments and agencies for accounting services and loan project technical assistance during the fiscal year ended June 30:

> Office of Comptroller Operations Department of Environmental Protect

# **11. LITIGATION**

PENNVEST is involved in various claims and legal actions arising in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on PENNVEST's financial position.

#### **12. RETIREMENT BENEFITS**

#### **General Information about the Pension Plan**

#### **Plan Description**

Substantially all employees of PENNVEST participate in the Pennsylvania State Employees' Retirement System ("SERS"), a cost-sharing multiple-employer defined benefit pension plan established by the Commonwealth to provide pension benefits for employees of State government and certain independent agencies. Membership in SERS is mandatory for most PENNVEST (and other State) employees. Article II of the Commonwealth's constitution assigns the authority to establish and amend the benefit provision of the plan to the General Assembly. SERS issues a publicly available financial report that can be obtained at www.sers.pa.gov.

# Benefits Provided

SERS provides retirement, death, and disability benefits. Member retirement benefits are determined by taking years of credited service, multiplied by final average salary, multiplied by 2%, and multiplied by class of service multiplier. PENNVEST employees participate in one of the following classes of service categories: Class A, Class AA, Class A-3 or Class A-4. According to the State Employees' Retirement Code ("SERC"), all obligations of SERS will be assumed by the Commonwealth should SERS terminate.

### 12. RETIREMENT BENEFITS, Continued

#### Contributions

Section 5507 of the SERC (71 Pa. C.S. §5507) requires the Commonwealth and other employers whose employees are SERS members to make contributions to the fund on behalf of all active members and annuitants necessary to fund the liabilities and provide the annuity reserves required to pay benefits. SERS funding policy, as set by the board, provides for periodic active member contributions at statutory rates. The SERS funding policy also provides for periodic employer contributions at actuarially determined rates based on SERS funding valuation, expressed as a percentage of annual retirement covered payroll, such that they, along with employee contributions and an actuarially determined rate of investment return, are adequate to accumulate assets to pay benefits when due. However, PA Act 2010-120 imposes rate increase collars (limits on annual rate increases) on employer contributions. The collar for Commonwealth fiscal year 14/15 was 4.5% and will remain at that rate until no longer needed.

Contributions to the pension plan from PENNVEST were \$701 and \$636 for the fiscal years ended June 30, 2018 and 2017, respectively.

### Pension Liabilities, Pension Expense, and Deferred Outflows and Inflows of Resources **Related to Pensions**

At June 30, 2018 and 2017, PENNVEST reported a liability of \$6,105 and \$6,891 respectively, for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2017 and 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. PENNVEST's proportion of the net pension liability was based on a projection of PENNVEST's long-term share of contributions to the pension plan relative to the projected contributions of all participating agencies, actuarially determined. At December 31, 2017 and 2016, PENNVEST's proportion was 0.036%.

For the fiscal year ended June 30, 2018 and 2017, PENNVEST recognized pension income/(expense) of \$25 and (\$436). At June 30, 2018 and 2017, PENNVEST reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

#### 12. RETIREMENT BENEFITS, Continued

Differences between expected and actual experience Net difference between projected and actual investme on pension plan investments Changes in proportion Changes in assumptions Differences between PENNVEST contributions and proportionate share of contribution PENNVEST contributions subsequent to measurement Total

The \$368 and \$343 reported as deferred outflows of resources related to pension resulting from PENNVEST contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the years ended June 30, 2018 and 2017, respectively. Other amounts reported as deferred outflows/inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending June 30: 2019 2020 2021 2022 2023 Thereafte

# **Actuarial Assumptions**

The following methods and assumptions were used in the December 31, 2017 and 2016 actuarial valuations. These methods and assumptions did not change from prior year and were applied to all periods included in the measurement:

|                            | 2017 and 2016   |  |  |  |  |  |  |
|----------------------------|---|--|--|--|--|--|--|
| Investment rate of return  | 7.25% net of manager fees including inflation.                    |  |  |  |  |  |  |
| Projected salary increases | Average of 5.60% with range of 3.70% - 8.90% including inflation. |  |  |  |  |  |  |

#### 12. RETIREMENT BENEFITS, Continued

Some of the methods and assumptions mentioned above are based on the *18th Investigation of Actuarial Experience*, which was published in March 2016, and analyzed experience from 2011 through 2015. The Commonwealth's actuary made recommendations with respect to the actuarial assumptions and methods based on their analysis.

The long-term expected real rate of return on pension plan investments is determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of December 31, 2017 and 2016 are summarized in the following table:

|                      | December 31, |                      |            |                      |  |  |  |  |

| Total                | 100%         |                      | 100%       | 0 0                  |  |  |  |  |
|                      | <b>N</b> .   |                      |            | - , °, O             |  |  |  |  |
| Discount Rate        |              |                      |            | 0 00                 |  |  |  |  |

The discount rate used to measure the total pension liability was 7.25% for both 2017 and 2016 actuarial valuations. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the rates applicable for each member and that employer contributions will be made based on rates determined by the actuary. Based on the assumptions, SERS fiduciary net position was projected to be available to make all projected future benefit payments of current active and non-active SERS members. Therefore, the long-term expected rate of return on SERS investments was applied to all periods of projected benefit payments to determine the total pension liability.

# Sensitivity of PENNVEST's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following schedule presents PENNVEST's proportionate share of the 2017 and 2016 net pension liability calculated using the discount rate of 7.25% for 2017 and 2016. It also shows what PENNVEST's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

# PENNVEST'S share of the net Pension liabilit of the 12-31-17 measurement date

PENNVEST'S share of the net Pension liability of the 12-31-16 measurement date

#### Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the separately issued SERS financial report.

# 13. POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS ("OPEB")

PENNVEST, through the Commonwealth's Retired Employees Health Plan ("REHP"), provides healthcare as a post-employment benefit to its employees that qualify for this benefit when they retire. The REHP has been established under pertinent statutory authority.

# **General Information about the REHP**

#### Plan Description and Administration

The REHP is a single employer defined benefit OPEB plan that includes Commonwealth agencies and some component units. The REHP is established as a trust equivalent arrangement for some Commonwealth agencies and component units. The REHP is administered by the Pennsylvania Employee Benefits Trust Fund ("PEBTF"), which acts as a third-party administrator under an administrative agreement with the Commonwealth. All policy decisions types and levels of benefits for the REHP fall under the purview of the Commonwealth's Executive Board, and the Secretary of Administration. The REHP does not have a governing board.

33

# 13. POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS ("OPEB"), Continued

The REHP is reported in the Commonwealth's CAFR as a Pension (and Other Employee Benefit) Trust. The REHP is reported using the economic resources measurement focus and the accrual basis of accounting. The CAFR is an audited financial statement and is available at <u>www.budget.pa.us</u>.

#### Contributions

REHP employer contribution requirements are established by the Commonwealth Office of Administration and the Office of the Budget. PENNVEST contributed \$362 (not in thousands) per biweekly pay period for each REHP eligible active employee to REHP per the actuarial valuation report as of June 30, 2017 (the measurement date). Contributions to the REHP were \$259 for the year ended June 30, 2017.

#### Benefits and Eligibility

The REHP covers retirees and their eligible dependents with medical and prescription drug plans. PENNVEST pays the insurance premiums for retirees with the exception of the following amounts received from the retiree:

| <b>Retirement Date:</b><br>Before July 1, 2005 | <b>Retiree share of cost of benefits:</b><br>Zero - PENNVEST pays full cost   |
|--|---|
| July 1, 2005 to June 30, 2007                  | 1% of final annual salary   |
| July 1, 2005 to June 30, 2011                  | 3% for non-Medicare and 1.5% for Medicare eligible retirees of either final gross annual base salary or final average salary, whichever is less |
| After June 30, 2011                            | 3% for non-Medicare and 1.5% for Medicare eligible retirees final average salary  |

Employees who retire from PENNVEST at any age with 25 or more years of service are eligible to receive REHP benefits. In addition, employees who retire at or over age 60 with a minimum of 20 years of service are eligible for coverage under the REHP. Coverage under disability retirement requires five years of service. Spouses and dependents are eligible for subsidized postemployment medical coverage while the retiree is alive. Surviving spouses of deceased retirees may continue to participate in the plan if they pay the full cost of the coverage.

# 13. POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS ("OPEB"), Continued

# OPEB Liabilities, OPEB Expense, and Deferred Outflows and Deferred Inflows of Resources Related to OPEB

At June 30, 2018, PENNVEST reported a liability of \$7,899 for its proportionate share of the collective net OPEB liability. The collective net OPEB liability was measured by an actuarial valuation as of June 30, 2017, with the exception that the census data information which was as of December 31, 2016. PENNVEST's proportion of the collective net OPEB liability was based on PENNVEST's contractually required contributions to the REHP relative to the contractually required contributions of all employers participating in the REHP. At June 30, 2017, the measurement date, the PENNVEST's proportion was 0.040139 percent which is unchanged from the prior measurement date.

For the year ending June 30, 2018, PENNVEST recognized OPEB expense of \$100. At June 30, 2018, PENNVEST reported deferred outflows and deferred inflows of resources related to OPEB from the following:

Differences between projected and actual earnings on plan investments Change of Assumptions PENNVEST contributions subsequent to the measurement date

Total

Deferred outflows of resources related to OPEB resulting from PENNVEST's contributions subsequent to the measurement date, June 30, 2017, but prior to the reporting date, June 30, 2018, of \$230 will be recognized as a reduction of the OPEB liability in the year ended June 30, 2019.

Other amounts reported as deferred inflows of resources related to OPEB will be recognized in the PENNVEST's OPEB expense as follows:

|    | June 3                  | 018 |                                     |     |

# 13. POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS ("OPEB"), Continued

#### Actuarial Methods and Assumptions

The following methods and assumptions were used in the June 30, 2017, actuarial valuation.

| Actuarial cost method            | Entry age, normal        |
|----------------------------------|--------------------------|
| Discount rate                    | 3.58%                    |
| Investment rate of return        | 5.00%                    |
| Initial medical trend rate       | 6.00%                    |
| Ultimate medical trend rate      | 3.90%                    |
| Inflation                        | 2.60%                    |
| Payroll growth                   | 2.90%                    |
| Year ultimate trend rate reached | 2075                     |
| Mortality rate                   | Projected RP-2000 Mortal |

Projected RP-2000 Mortality Tables

The above actuarial assumptions were determined, in-part, based on the SERS experience studies performed periodically to determine reasonable and appropriate economic and demographic assumptions for purposes of valuing the defined benefit pension plan. The most recent SERS experience study covered the years 2011 through 2015 and was presented to the State Employees' Retirement Board in March 2016. The approved recommendations from that study were used to determine the assumptions for the REHP valuation, where applicable.

One significant assumption where the recommendation of the experience study is not applicable to the retiree health benefit valuation is the discount rate. Since REHP has insufficient assets to meet next year's projected benefit payments, as prescribed by GASB Nos. 74 and 75, the discount rate is based on the index rate for 20-year tax exempt general obligation municipal bond index rate with an average rating of AA/Aa or higher as of the measurement date. The Commonwealth elected to determine the discount rate using the Bond Buyer 20-Bond General Obligation Index. The discount rate was 3.58% as of June 30, 2017.

# Long-term Expected Return on Plan Assets

The long-term expected rate of return on REHP plan investments is determined using a risk premium review. This review compares the current relationship between fixed income and equity and their relationship over long periods of time to come up with an expected rate of return. Other variables considered in the expected rates of return are a reversion to the mean for each asset class. Best estimates of arithmetic real rates of return for each major asses class included in the target asset allocation are summarized in the following table:

# 13. POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS ("OPEB"), Continued

| Asset Class          | Target<br>Allocation | Long-term<br>Expected Real<br>Rate of Return |
|----------------------|----------------------|--|
| US Equity            | 47%                  | 7.5%   |
| International Equity | 20%                  | 8.5%   |
| Fixed Income         | 25%                  | 3.0%   |
| Real Estate          | 8%                   | 3.0%   |
| Cash                 | 0%                   | 1.0%   |
| Total                | 100%                 |  |

Sensitivity of PENNVEST's Proportionate Share of the Net OPEB Liability to Changes in the **Discount Rate** 

The following presents PENNVEST's 2018 OPEB liability calculated using the discount rate of 3.58%, as well as what PENNVEST's OPEB liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

| 1% | 1% Decrease |    | Current Discount | 1% Increase |       |  |  |
|----|-------------|----|------------------|-------------|-------|--|--|
|    | 2.58%       | _  | Rate 3.58%       |             | 4.58% |  |  |
| \$ | 9,255       | \$ | 7,899            | \$          | 7,000 |  |  |

Sensitivity of PENNVEST's Proportionate Share of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rate

The following presents PENNVEST's 2018 OPEB liability calculated using the assumed trend rates of 6.0% grading down to 3.9%, as well as what PENNVEST's OPEB liability would be if it were calculated using a trend rate that is one percentage point lower or one percentage point higher than the current rate:

#### 1. GENERAL

The accompanying schedules present the activity for two of the five funds maintained by PENNVEST: the Federal Clean Water State Revolving Loan Fund which accounts for the financial activity resulting from capitalization grants received from the federal government under the State Revolving Loan Funds Program; and the Federal Drinking Water State Revolving Loan Fund which accounts for the financial activity resulting from grants received from the federal government under the State Revolving Loan Funds Program. The activity resulting from the Commonwealth of Pennsylvania capital contributed to PENNVEST, and the 2010 and 1990 trust funds have not been presented in the schedules except for the transactions with these two funds. The schedules have been presented to comply with contractual arrangements with the funding sources.

2. BASIS OF ACCOUNTING

The accompanying schedules are presented using the accrual basis of accounting, which is described in Note 1 of PENNVEST's financial statements.

3. TRANSFER OF LOANS BETWEEN FUNDS

When PENNVEST transfers a loan receivable between the funds identified above, the loan transfer is recorded in contributed capital and the provision for loan losses related to the transferred loans is reflected as an adjustment to net position.

# 4. ALLOWANCE FOR LOAN LOSSES

The allowance for loan losses was \$16,383 and \$3,518 for the Federal Clean Water State Revolving Loan Fund, and the Federal Drinking Water State Loan Fund, respectively, at June 30, 2018 and \$11,252 and \$2,521, respectively, at June 30, 2017.

5. COMMITMENTS & CONTINGENT LIABILITIES

At June 30, 2018, PENNVEST had approved approximately \$315,497 and \$66,329, respectively, of Federal Clean Water and Federal Drinking Water loans that had not yet been disbursed. The monies needed to fund these loans will be generated from contributions by the federal government or the Commonwealth of Pennsylvania, revenue bonds, and principal repayments on existing loans.

Amounts received or receivable from grant agencies are subject to audit and adjustments by grantor agencies, principally the federal governments. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenses that may be disallowed by the grantor cannot be determined at this time, although PENNVEST expects such amounts, if any, to be immaterial.

#### REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

#### INDEPENDENT AUDITOR'S REPORT

The Board of Directors Pennsylvania Infrastructure Investment Authority

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the Pennsylvania Infrastructure Investment Authority ("PENNVEST"), a component unit of the Commonwealth of Pennsylvania as of and for the years ended June 30, 2018 and 2017, and the related notes to the financial statements, which collectively comprise PENNVEST's basic financial statements, and have issued our report thereon dated October 18, 2018.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered PENNVEST's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of PENNVEST's internal control. Accordingly, we do not express an opinion on the effectiveness of PENNVEST's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did

Meeting the Toughest Challenges. Inspiring Confidence.<sup>SM</sup>

not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether PENNVEST's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of the Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
